SUMMARY

Final-year CS student at the University of Sydney. Experienced with SQL and field deployment of smart-sensor systems (middleware + monitoring), plus hands-on support for computer-vision validation and API issue triage.

AREAS

Software Engineering • Smart Sensors/IoT
Middleware/Monitoring
• Data/SQL

TECH KEYWORDS

SQL / Java / Python / C++
Docker / PIDMiddleware
/ Monitoring UI

LANGUAGES

Korean (Native)
English (Professional)
Spanish (DELE A2)

EXPERIENCE

Dec 2025 – Feb 2026 **Sensorway** — Computer Vision & Field Deployment Intern

- Supported on-site setup at Ecopro(Hungary): smart sensors, PIDMiddleware, SQL, Docker, and monitoring UI configuration.
- Validated end-to-end flow from sensors to middleware/database and ensured visibility in monitoring UI during rollout.
- Assisted flash-attack detection initiative via video-based validation and iterative testing support.
- Supported API issue triage by reproducing issues, documenting edge cases, and coordinating fixes.
- Supported deployment scale of **~750 sensors** across the site.

Jun 2021 – Aug 2021 **Seoul National University** — Lab Internship (Materials Science & Engineering) (South Korea)

- Learned fundamentals of research workflow, data collection, and collaborative discussion for decision-making.
- Applied structured research practices to complete a capstone project more efficiently.

EDUCATION

Aug 2022 – Present **University of Sydney** — Bachelor of Advanced Computing (Computer Science), Sydney, NSW

Oct 2017 – Jun 2022 **St Johnsbury Academy Jeju** — High School Diploma

PROJECTS

2021 – 2022 **Uncontacted Coffee Machine** — High School Capstone Project (South Korea)

- Built a contactless coffee machine concept to reduce infection risk during COVID-19.
- Implemented with Arduino (C) and motion/distance sensing to detect hand movement without physical touch.

SKILLS

Python

Java

SQL

C++

AWARDS

2019 Prudential Voluntary Work Competition (Korean high school) — Bronze Prize
2020 Samsung Enterprise Competition (startup support program) — Grand Prize
2019–2022 Jeju Provincial Park President's Commendation Award
2019–2022 Korea Youth Volunteer Federation Commendation

ACTIVITIES

2018	Cyber Ambassador (VANK global history diplomatic relationship ambassador)
2019	Better World (Frontier) — American teenager invitation business camp
2019–	Community service organization founding member; monthly local community service
2019–2022	Gotjawal provincial park advertisement and management (volunteering club)
2020–	Ara Company CEO; patent application through Samsung Enterprise competition
2020	University of Hong Kong camp for high school students
